

Injury Prevention Services (IPS)

- **Musculoskeletal assessment**
- **Manual interventions**
- **Ergonomic assessments and work-site visits**
- **Work conditioning and micro-break programs**
- **Body mechanics and posture education**
- **Wellness education and initiatives**
- **Partnership with company safety initiatives**

Early intervention, hands on approach, positive ROI.

Our IPS program is a unique approach to injury prevention triage and intervention, that assesses the root cause of the potential injury, designed to reduce recordable injuries, claim costs and incidences of overuse injuries.
